INSTRUCTION FOR TOLL LINE USERS

When you desire to use the toll lines, ask CENTRAL for "LONG DISTANCE." When "LONG DISTANCE" answers, give your name, your telephone number, the Exchange, where the called for telephone or person desired, can be located, and make certain that the operator understands what class of service you desire.

Ask "LONG DISTANCE OPERATOR" for rates.

We cannot make a charge for messages against non-subscribers, and same must be paid before the conversation takes place.

Should you allow others to use your telephone for Long Distance purposes, such messages must be charged to your telephone, as though they were your messages, and we must hold you responsible for payment of same.

Messages may be sent "COLLECT," provided the request is made before the conversation takes place, and the party being called guarantees the charges.

A subscriber may make an appointment for a connection at any time, day or night. If it is necessary to send a messenger for the party called, an additional charge for said service will be made. Messenger fee is charged where service has actually been performed, whether or not the parties talk.

This company does not assume any responsibility for errors in transmitting verbal or written messages through or by its employees.

Toll bills are due and payable on the first of each succeeding month.

PAYMENT OF RENTAL AND TOLL ACCOUNTS

TELEPHONE RENTALS ARE DUE AND PAYABLE QUARTERLY IN ADVANCE, AT THE OFFICE OF THE COMPANY, ON THE FIRST DAYS OF JANUARY, APRIL, JULY, AND OCTOBER.

TOLL OR LONG DISTANCE BILLS ARE PAYABLE MONTHLY AT THE OFFICE OF THE COMPANY ON THE FIRST DAY OF EACH SUCCEEDING MONTH.

Note the comparison below of rates for the several classes of service between two points where the "Station to Station" rate is 90 cents:

Messenger and Appointment rate (3 minutes).....	\$1.35x
Person to Person rate (3 minutes).....	1.10
Station to Station rate (3 minutes).....	.90
Evening rate (3 minutes).....	.45
Night rate (5 minutes).....	.25
Report Charge25

x—Plus actual expense for messenger when messenger is required.

Please make certain, in placing a call, that the operator understands what class of service you desire.

Party using these lines WILL NOT BE NOTIFIED when the three (3) minute limit is reached, as this usually causes a loss of one to three minutes and is annoying to patrons.

SCHEDULE OF SERVICE CONNECTION AND OTHER CHARGES PRESCRIBED BY THE PUBLIC SERVICE COMMISSION OF INDIANA, ORDER NO. 4799, EFFECTIVE APRIL 1, 1920, APPLYING AT LOGANSPORT, WALTON, GALVESTON, LUCERNE, YOUNG AMERICA AND NEW WAVERLY, INDIANA.

1. For individual and party line service.....\$3.50
2. For each extension station connected with any class of telephone service..... 3.50
3. For private branch exchange service the charge for establishing service connection:
 - (a) For each trunk line connecting the private branch exchange with a central office..... 3.50
 - (b) For each telephone connected to the private branch exchange except operators' telephone sets 3.50
4. Where service is established by the use of instrumentalities already in place in the subscriber's premises and no change is made in the type or location of such instrumentalities..... .50
5. Charges for changes of location of telephone equipment or wiring on the subscriber's premises to be:
 - (a) For moving a telephone set from one location to another on the same premises, a charge of.... 3.00
 - (b) For moving any other equipment or wiring from one location to another on the same premises, a charge based on the cost of labor and material.
6. Charges for changes other than moves, in wiring and equipment on the subscriber's premises made on the initiative of the subscriber to be:
 - (a) For change in type or style of telephone set, a charge of..... 3.00
 - (b) For other changes in equipment or wiring, a charge based on the cost of labor and material.
7. Change of name where service is already established, a charge of..... .50

ALL CHARGES HEREIN DESCRIBED TO BE COLLECTED from all applicants for new service of the classes specified above at the time of application and prior to the establishment of such service.

IT IS FURTHER ORDERED, that each telephone company in Indiana herein ordered or authorized to enforce charges for service connections, moves and change of name, shall apply and enforce each and all of said charges uniformly and without discrimination between patrons.

ALL ACCOUNTS UNPAID AFTER THE 10th OF THE MONTH IN WHICH THEY FALL DUE, WILL BE CONSIDERED IN ARREARS, AND SERVICE WILL BE SUBJECT TO DISCONNECTION ON THE LINES OF ALL SUBSCRIBERS WHO ARE DELINQUENT AFTER THE 15th AND THE COMPANY MAY DISCONNECT OR REMOVE SAID STATION; BUT SUCH ACTION SHALL NOT AFFECT THE SUBSCRIBER'S LIABILITY FOR PAYMENT FOR THE FULL TERM OF HIS OR HER CONTRACT. AGAINST ALL SUBSCRIBERS WHO FAIL TO PAY AS HEREIN PROVIDED, A CHARGE OF 50c WILL BE MADE AND COLLECTED FOR DISCONNECTING AND RECONNECTING THE SERVICE. ANY PERSON WHO HAS A DELINQUENT ACCOUNT WITH THE COMPANY WILL NOT BE ACCEPTED AS A SUBSCRIBER UNTIL SUCH ACCOUNT IS PAID.

If you desire information in reference to your telephone bill, call telephone No. 400.

IMPORTANT NOTICE TO TOLL USERS

It is particularly desirable that the toll using public have a thorough understanding of the different classes of toll service which may now be obtained. The rates for "Station to Station," and "Evening and Night" Service are considerably less than the "Person to Person" rate and in many cases the cheaper service will meet the telephone user's requirements as well as the "Person to Person" service. A careful study of different classes of toll service, listed below, should therefore be made.

The classes of service offered are "Station to Station," "Person to Person," "Messenger and Appointment," and "Evening and Night."

"STATION TO STATION" RATE—When a toll call is made for any one answering the telephone, and the conversation is held, the "Station to Station" rate applies. Calls of this kind should be made by number whenever possible. They may, however, be placed by giving the name the telephone is listed under at the called point and requesting "Station to Station" service, or by requesting conversation with any one who answers the telephone.

"PERSON TO PERSON" RATE—When a person makes a toll call for a particular person and the conversation is held, the "Person to Person" rate applies. As this service requires a greater amount of operating effort and use of toll circuits, the rate is about one-fourth greater than the "Station to Station" rate. For this class of calls the day rate applies whether the call is made during the day or night.

These calls are subject to a "Report Charge" made under certain conditions as explained later.

"MESSENGER AND APPOINTMENT" RATE—When the calling party specifies a definite time at which he will talk and the conversation is held the "Appointment" rate applies. The "Appointment" rate is approximately one-half greater than the "Station to Station" rate. The day rate applies whether conversation is held during the day or night. For "Messenger" calls the rate is the same as the "Appointment" rate plus the actual messenger expense.

"REVERSED CHARGES"—Charges will be billed to the telephone called on "Station to Station," "Person to Person," "Appointment" or "Messenger" calls, if you request this when placing your call and the person agrees to pay the charges. "Reversed Charges" will not be accepted at the "Station to Station" rate where the rate is less than 20 cents.

STANDARD TOLL NIGHT RATES—The following reduced rates for night service on "Station to Station" basis only are effective:

7:00 p. m. to 8:30 p. m.—Evening Rate—about three-fourths of the "Station to Station" day rate.

8:30 p. m. to 4:30 a. m.—Night Rate—about one half of the "Station to Station" day rate.

For the purpose of applying night rates, the time of day at the point at which a "Station to Station" message originates, is used.

The Minimum Evening and Night Rate is 35c. Day rates apply on calls made during the evening and night periods when the "Station to Station" charge is less than the minimum night rate.

"REPORT CHARGE"—When a "Person to Person" call is made and the particular person desired is not in or will not talk, or when an exact telephone address of the particular person desired has not been given, and he cannot be reached at a telephone, within one hour, a "Report Charge" applies. This charge also applies if the calling party is absent when the connection is ready within one hour, or if he refuses to talk. This charge is to cover compensation for the operating work performed and use of toll circuits, and is approximately one-fourth of the "Station to Station" rate. If a report is made and the call is completed later in the same day the report charge is cancelled.

A WORD TO OUR SUBSCRIBERS IN REGARD TO EXTENSION TELEPHONES

Every subscriber for business or residence telephone service should know about the extension telephone, which so many are using as a means of increasing the value of the service.

This telephone may be placed at any distance desired from the main telephone, in the same office, house, or apartment, at the point where its value in the saving of time and effort will be the greatest, which means time saving to the party at each end of the line.

It obviates running up and down stairs, leaving your work.

Gives both floors telephone service, business or residence, at a very trifling additional cost.

Then, there are the out-going calls. Isn't it worth while to be able to transact your business, call up your friends, or order household supplies, without making a special trip to the main telephone every time?

Those who are now using the extension telephone service are very enthusiastic in praise of its utility; they tell us it actually saves many times the moderate charge we make for extra service.

For further information, telephone No. 400.

OFFICIAL NOTICE

The company will not be responsible for change in subscribers' numbers. Such changes will, however, be made as seldom as possible.

Ten (10) days written notice must be given to the Company by patrons desiring telephones moved or changed.

Any one using abusive or improper language to the operator will be prosecuted.

A charge will be made for repairing broken telephones covering actual cost of material and labor.

Any apparatus placed in connection with the wires or apparatus of the Company without the written consent of the Company, will be removed without notice.

This company assumes no liability whatever for damages accruing from errors or omissions in the compilation or printing of this book. This telephone directory is the property of the Company. One copy will be furnished for each telephone, free; if lost or destroyed, a new copy will be furnished at cost.

This company desires to give the BEST SERVICE POSSIBLE and will promptly correct all faults when discovered; but, owing to the extreme sensitiveness of the telephone to many disturbing causes, the instrument may operate unsatisfactorily without our knowledge—we can learn it only from the subscriber, therefore you are earnestly requested to promptly report any defect to Chief Operator, telephone No. 302.

An impression is prevalent that only a favored few can secure employment in our operating department. The application of any young lady of good moral character, possessing the necessary qualifications, will be accepted in its order and no preference shown to any one. Apply in person to Chief Operator.

INSTRUCTIONS TO LOGANSPORT CITY SUBSCRIBERS

TO CALL CENTRAL—Look in the directory for the number. Remove receiver from the hook and place it to your ear. The operator will answer "Number?" Then repeat the number of the party you desire to talk with. Continue listening and your party will answer. If the line is busy, the operator will inform you. Stand close to your telephone with your lips directly in front of and as near the rubber mouthpiece or transmitter as possible. Hang up the receiver when through talking. If you have finished a conversation with a city subscriber and desire to make another call, simply press the receiver hook down once and wait for the operator to answer. Do not give your order to the operator by the name of the subscriber. Call by number only.

TO CALL A CITY SUBSCRIBER HAVING THE SAME NUMBER AS YOUR OWN, but followed by a different letter, indicating the city subscriber is on the same line that you are—Ask the operator to ring K, L, R, or Y call on this line, and then hang up your receiver while the operator is ringing.

Operators answer calls only. Call "INFORMATION OPERATOR" for the number of any new subscriber not listed in the Directory.

New names are being added daily; therefore we maintain an INFORMATION OPERATOR'S position, where correct lists are always available, and where any inquiry as to subscribers' names or numbers will be promptly answered.

Many subscribers use want ads daily, giving their telephone numbers instead of their names to gain secrecy. In such cases it is unfair to them for our operators to give their names to the inquisitive reader of the ad. Anyone having a legitimate reason for wanting to know the name may call the number and ask.

Telephone numbers and subscribers' names asked for by street number are usually requested by someone wanting to call a friend who is a non-subscriber. The number at an address in the neighborhood of the friend is called and the unfortunate neighbor is requested to call the friend to the telephone. These and many like instances occur daily.

These rules are made in the interest of better service and we believe will meet with the hearty approval of our subscribers.

Use numbers only in giving an order to the Operator, thus: 56 should be given as five-six; 546 as five-four-six; 566 as five-six-six; 1336 as one-three-three-six; 2234 as two-two-three-four; 100 as one-hundred; 1200 as one-two-hundred.

Operator will then repeat number back to avoid mistakes.

When you are called, answer promptly. The subscriber at the other end is waiting and failure on your part to answer at once may be the means of causing your party to hang up the receiver. If such is the case, the operator has no means of telling who called you.

Each operator handles a board consisting of 200 numbers; for example, A's board ranges from 1 to 200; D's from 1,000 to 1,200; subscriber 117 calls 1172 who is slow in answering, and 117 hangs up receiver; then 1172 asks operator D who has charge of board he is on, who called 1172, D cannot tell for the reason that the call was handled by A, who is operator on the board on which 117 is located. Promptness on your part in answering calls will obviate this trouble.

When you call a telephone number, the operator reaches directly to the line and tests it. If it is busy, a sharp clicking sound warns her that she must not then make connections with it, as conversation will be interrupted and confusion ensue.

It is easier to complete a connection than to report a line busy, and there is no reason why the operator should not complete a connection at once, if possible. Many busy businesses fail to have lines enough to handle their calls; thus their customers get many busy signals.

If the called-for city subscriber's telephone is not busy, the operator completes the connection, whereupon the called-for subscriber's telephone will ring intermittently for one and one-half (1 1-2) seconds in every six (6) until the called-for subscriber answers. The calling subscriber is advised of the called-for party being signalled by a reverting tone, which is distinctly audible whenever the signalling current is being projected over the called-for line. This does not apply to TOLL AND RURAL CONNECTIONS.

"Hello" means nothing. Please answer all telephone calls promptly, by stating either the telephone number, the name of the firm, or the name of the party answering, and save valuable time and endless questions, thus help to make your service more satisfactory.

Report mistakes of operators, delays, or inattention, to the Chief Operator, telephone No. 302. If not corrected, kindly report to the Manager in writing.

Report all instrument and line trouble to INFORMATION OPERATOR, and if not promptly attended to, after having notified INFORMATION OPERATOR, call CHIEF OPERATOR, telephone No. 302.

Call telephone No. 400 for information concerning additional service, new telephones and lines.

Call telephone No. 246 for police.

In case of fire, call PHONE NO. 302 and fire department will be notified.

Call TOLL DESK for long distance connections.

Call FARMER BOARD for rural subscribers connected with Logansport Exchange.

Report errors or omissions in the Directory to the General Office, telephone No. 400, or by letter if convenient.

Please notify INFORMATION OPERATOR when leaving city, so operator will know why you do not answer calls, and that your telephone is not in trouble.

Please destroy old directories and substitute this one. Old directories are incomplete and therefore misleading at this date. Directories are prepared at considerable expense to the Company, and where duplicate directory is issued to subscriber, the actual cost will be charged for same.

Telephone rentals are due and payable quarterly in advance on the first days of January, April, July and October. Toll bills are due and payable on the first of each succeeding month.

READ CAREFULLY

SPECIAL FEATURES ON LOGANSPORT MAIN SWITCHBOARD

AUTOMATIC LISTENING—The instant the operator takes up your call, she is automatically connected with your line and asks for "Number." When she connects your line with the number you have called, she is automatically cut off.

SECRET SERVICE—The operators have no "listening key" and therefore cannot listen to your conversation, as they can on other systems.

AUTOMATIC RINGING—As soon as you are connected with your party, their telephone will ring for one and one-half (1 1-2) seconds in every six (6) until they answer. You will distinctly hear every ring in your own receiver. Remember, this does not apply to Toll, Branch Exchange, and rural connections. The Logansport Main Switchboard operator has nothing to do with the ringing.

INSTANTANEOUS RE-CALL—This entirely does away with the working of the receiver hook and delay in making a number of calls in succession for Logansport city subscribers. If you wish to call again, press the receiver hook **ONCE ONLY** and the operator will answer promptly.

YOU CAN IMPROVE YOUR OWN TELEPHONE SERVICE—Telephone engineers have made the following statements: When speaking into a telephone, the best results are obtained with the lips very close to the transmitter, just so they do not touch it. Removing the lips from the transmitter has the same effect as lengthening the line in use as follows:

One inch lengthens the line 57 miles.

Two inches lengthens the line 128 miles.

Three inches lengthens the line 179 miles.

Four inches lengthens the line 218 miles.

Your co-operation is earnestly requested in everything which will tend to give the Logansport Home Telephone Company's subscribers **BETTER and MORE EFFICIENT TELEPHONE SERVICE.**

Visit our main exchange and observe how over 40,000 telephone calls are handled daily. Visitors are welcome at our Logansport Exchange on any week day between 9:00 and 12:00 a. m., and between 2:00 and 6:00 p. m. A card will be furnished in the office of the manager on the second floor.

USE OF TELEPHONE BY NON-SUBSCRIBERS

Non-subscribers have the use of telephones at pay stations only.

If any one has frequent use for a telephone, he should have one placed in his office or residence, as the case may be, and not interfere with his neighbor.

When a patron places a telephone in his residence or in his office, he places it there for his own accommodation and not for public purposes.

To many subscribers, the telephone furnishes an important avenue for the receipt of business. Frequently the telephone borrower is monopolizing the line at the time when some one is trying to give an order to the subscriber. When he is told the line is busy, he places his order elsewhere, and the subscriber loses the business.

PARTY LINE COURTESY

Each subscriber on a party line has equal rights to its use. In fairness to all, therefore, your use of it is necessarily subject to the following rules:

Conversations should be limited to five minutes or less. When the quick use of the telephone may be necessary to the saving of life and property, you should be glad to give up the line at once.

If you are a country subscriber, answer only your own calls when your bells ring. If in doubt, wait until the ring is repeated; and do not remove the receiver from the hook while your bell is ringing. If you do, the wrong bells will also receive the rings.

When you wish to use the line, first listen without speaking. If the line is found in use, hang up the receiver at once and wait a reasonable time.

You cannot signal the operator while the line is in use by others. Do not try to, as it only causes delay and annoyance.

Listening to others' conversation is not only extremely discourteous and wrong, but it reduces the battery power and makes poor service. Do not allow any one in your family to do it.

Do not dispute and wrangle with other subscribers for possession of the line. Live up to these rules yourself, and if you know of others who persistently violate them, let us know and we will do what we can to have them observed by all.

We trust, however, that your idea of courtesy and fairness will make any further action on the part of the Company unnecessary.

TIME!

**One of the Greatest Factors in Good Telephone Service Is
to Be Brief**

Not Over Five Minutes is a good rule. It is far better to talk three times, five minutes each time, than to hold the line 15 minutes or longer.

When this 5 minute rule is observed, it will result in less "Busy" reports and which is an all around improvement in the service for every subscriber.

IT IS YOUR SERVICE — YOU CAN HELP

Partnership

The making of even the most ordinary telephone call involves a partnership of at least three persons.

The effectiveness of the service depends on the degree of team-play existing between these three partners:

—the person calling, who co-operates by consulting the directory and speaking as distinctly as possible;

—the operator, who co-operates by making the connection quickly, courteously and with the maximum degree of human accuracy;

—the person called, who co-operates by answering promptly.

Greater satisfaction of service is attained when the second partner, the operator, is accorded the same consideration and courtesy which she is always anxious to show the two other parties to the partnership.

Think what it means to be able to get an immediate reply to an urgent message! It often means time, money—even lives saved. The Telephone alone makes this service possible.

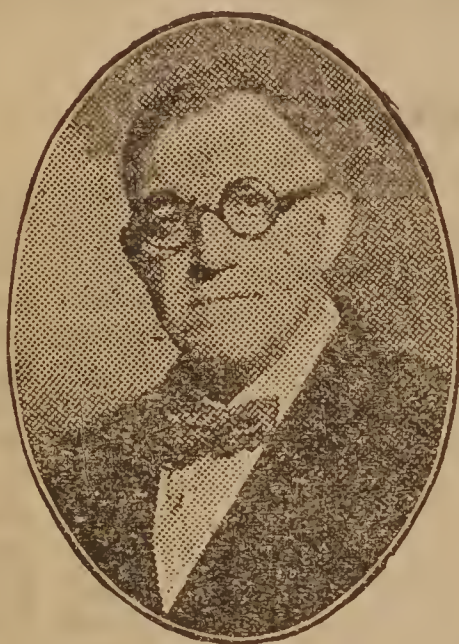

CHIROPRACTIC

THE BETTER WAY TO HEALTH

Koffel and Koffel

PALMER CHIROPRACTORS

15th Year in Practice

ROY KOFFEL

Neurocalometer Technician

We Use the
Neurocalo-
meter and
X-Ray in
Our Health
Service

WE urge scientific X-Ray analysis before any adjustment is made. We accept no case where the patient cannot be benefited. The neurocalometer determines where nerve pressure is on the spinal nerves, causing disease; measures it and shows when it is released.

INSTRUCTIONS TO RURAL LINE AND BRANCH EXCHANGE SUBSCRIBERS

To call Central, look in the Directory for the number. Take receiver off of hook to ascertain if the line is in use. If not, replace receiver and give one turn of the crank. When through talking, replace the receiver on the hook and give one short turn of the crank, thereby notifying the operator that you are through talking.

When calling a subscriber on same line, after giving operator call, replace receiver for a few seconds, then take down receiver and proceed with conversation.

Conversations on rural lines should positively be restricted to five (5) minutes.

CALL INFORMATION OPERATOR for numbers of new subscribers not listed in Directory.

In order to give good service to subscribers on rural lines, it is absolutely necessary that no receiver be taken from the phone while any other phone on the line is in use.

When a receiver is taken down and it is discovered that the line is already in use, such receiver must be immediately replaced until the use of the line is discontinued.

You know your ring. Answer it. Let other rings alone.

Be patient with Central Station. They are sometimes busy.

Put receiver on hook as soon as you finish talking. This saves batteries.

All telephones installed on rural lines are for the exclusive use of the subscribers and their families. No one except a subscriber or member of his family is permitted to use such telephone, except upon payment of the regular toll rates.

Regular Toll Stations will be established and maintained at convenient points in different parts of the county, and persons who are not subscribers will be required to use these toll stations exclusively.

Private phones are for exclusive use of subscriber and his immediate family.

It will only be possible to furnish satisfactory service in the event these rules are rigidly adhered to and enforced, and in the event it is ascertained by the Company that a subscriber on any rural line has violated any provision hereof or permitted any unauthorized use of his telephone, the same will be immediately removed and his contract cancelled.

All subscribers are earnestly requested to promptly report any infraction of the rules to the Logansport office.

This Company reserves right to withdraw service from any subscriber allowing his phone to be used by non-subscribers, or listening on the line.

Logansport subscribers should call Farmer Board for all rural line connections.

All telephone rentals are due and payable quarterly in advance, on the first of January, April, July and October.

Toll bills are due and payable on the first of each succeeding month.

ALL ACCOUNTS UNPAID AFTER THE 10TH OF THE MONTH IN WHICH THEY FALL DUE, WILL BE CONSIDERED IN ARREARS AND SERVICE WILL BE SUBJECT TO DISCONNECTION ON THE LINES OF ALL SUBSCRIBERS WHO ARE DELINQUENT AFTER THE 15TH AND THE COMPANY MAY DISCONNECT OR REMOVE SAID STATION; BUT SUCH ACTION SHALL NOT AFFECT THE SUBSCRIBER'S LIABILITY FOR PAYMENT FOR THE FULL TERM OF HIS OR HER CONTRACT. AGAINST ALL SUBSCRIBERS WHO FAIL TO PAY AS HEREIN PROVIDED, A CHARGE OF 50c WILL BE MADE AND COLLECTED FOR DISCONNECTING AND RECONNECTING THE SERVICE. ANY PERSON WHO HAS A DELINQUENT ACCOUNT WITH THE COMPANY WILL NOT BE ACCEPTED AS A SUBSCRIBER UNTIL SUCH ACCOUNT IS PAID.

Partnership

The making of even the most ordinary telephone call involves a partnership of at least three persons.

The effectiveness of the service depends on the degree of team-play existing between these three partners:

- the person calling, who co-operates by consulting the directory and speaking as distinctly as possible;

- the operator, who co-operates by making the connection quickly, courteously and with the maximum degree of human accuracy;

- the person called, who co-operates by answering promptly.

Greater satisfaction of service is attained when the second partner, the operator, is accorded the same consideration and courtesy which she is always anxious to show the two other parties to the partnership.

Smile —

When You Telephone

Make it a practice to be as courteous when telephoning as you are in a face to face conversation. The fact that a telephone line separates you from the person to whom you are speaking takes none of the sting out of unkind words.

The Voice With the Smile Wins
